Rahma Khaled Ahmed Oshba

Junior Cybersecurity GRC Analyst

Cairo, Egypt | rahmakoshba@gmail.com | linkedin.com/in/rahma-oshba-16321624a

Professional Summary

Computer Engineer and Cybersecurity GRC trainee at NTI, with a Postgraduate Diploma in Cybersecurity and a strong IT infrastructure and network security background (CCNA, CEH, NSE 4). Building hands-on knowledge of information security policies, ISO/IEC 27001, NIST, risk management, security controls and audit processes. Three years of university teaching experience with strong documentation, reporting and communication skills, and a security-first mindset with high attention to detail.

Education

- **MSc in Computer Engineering – AASTMT, Alexandria**
  Sep 2024 – Present
- **Postgraduate Diploma in Cybersecurity – Ain Shams University (IT Gate Academy)**
  Jan 2025 – Jan 2026
- **Bachelor's Degree (BSc) in Computer Engineering – BHI, El Behira (GPA: 3.63/4.0)**
  Jun 2023

Internships

NTI Hire Ready Program – GRC Track Oct 2026 – Jan 2027

- **Frameworks:** Building a strong understanding of ISO/IEC 27001 (ISMS, Annex A, risk treatment, certification process), NIST CSF, NIST RMF (SP 800-53), SOC 2, PCI DSS, HIPAA, GDPR, cloud compliance (ISO 27017, CSA CCM) and AI governance.
- **Governance:** Developing information security policies, standards and internal procedures, RACI charts and security awareness programs.
- **Risk Management:** Identifying, assessing and documenting information security risks; threat modeling, BIA, risk registers, risk treatment and mitigation plans.
- **Compliance & Audit:** Collecting compliance evidence, gap assessments, internal audits, control testing, tracking audit findings and remediation, with mock audits.
- **Reporting & Tools:** Preparing risk reports, dashboards and executive summaries using GRC tools (RSA Archer, ServiceNow GRC) in hands-on labs.

Information Systems Trainee – El Behira Electricity Distribution Co. Jul 2022 – Aug 2022

- Learned how information systems support daily operations in a utility company.

Database Engineer Trainee – GAMP LTD, Alexandria Jul 2021 – Aug 2021

- Designed and queried relational databases; gained experience in data modelling and query optimization.

Experience

Teaching Assistant – AASTMT, Alexandria (Part-time) Feb 2026 – Present

- Deliver tutorials and lab sessions to undergraduate students.
- Explain theoretical concepts through practical demonstrations and provide technical guidance during lab assignments.

Teaching Assistant – BHI, El Behira (Part-time) Oct 2023 – Present

- Teach labs in 10+ modules, including Data Security and Database Systems.
- Design exercises and assessment rubrics; write clear feedback reports.

Courses

- CCNA v7 (200-301) · CCNA Security
- CEH v13 – Certified Ethical Hacker
- NSE 4 – Fortinet Network Security
- MCSA 2019 – Windows Server

Technical Skills

- **GRC (in training):** Risk management, governance controls, compliance documentation, audit preparation, policy and procedure development.
- **Risk & Controls:** Risk identification and documentation, risk treatment, control effectiveness review, gap assessments, audit evidence, security awareness.
- **Security Controls:** Network security concepts, firewalls, VPN and IDS/IPS (Fortinet FortiGate).
- **Cyber Attacks:** Familiar with common attack types: phishing and social engineering, malware, MITM, SQL injection and DoS.
- **Networking:** TCP/IP, routing and switching, VLANs, ACLs, NAT.
- **Systems & Access:** Windows Server (Active Directory, Group Policy), access control (authentication, authorization, MFA), Linux basics.
- **Tools:** Microsoft Office 365 (Excel, Word, PowerPoint), Python, C++.

Projects

Smart Glasses for Visually Impaired Users – Graduation Project | View project 2022 – 2023

- Led the machine learning part: face recognition, OCR and object detection using Python, OpenCV and TensorFlow.

MSc Research: Secure Wireless Sensor Networks In progress

- Researching security for wireless sensor networks using cryptography, intrusion detection and security-aware routing.

Roaya: Smart City Project Plan – NTI Team Project | View project Nov 2026

- Planned a 24-month smart city project with a team of six: project charter, schedule, resources, risk, quality and communication plans.
- Strengthened soft skills: teamwork, communication, presentation and time management; presented the plan to the committee.

Other Skills

Communication, Analytical Thinking, Attention to Detail, Precision in Documentation, Report Writing, Presentations, Bridging Technical and Non-Technical Teams, Teamwork, Integrity, Working Under Pressure, Meeting Deadlines, Continuous Learning.

Language

- Arabic (Native)
- English (Professional Working Proficiency)
